

make the call no M.I.P.

Nebraska's Good Samaritan Law encourages minors to call 911 when they suspect an alcohol overdose without fear of receiving an MIP (minor in possession).

The law provides limited immunity for MIP to **both the intoxicated minor and the first person to request help for the intoxicated individual.**

The caller should:

- Make a good faith request for emergency medical assistance
- Remain on the scene until law enforcement and/or medical personnel arrive
- Cooperate with officials
